The above infographics visually summarize stakeholder engagement activities involving legislators, religious leaders, education and health sector representatives, as well as project implementation teams.

The data reported showed that:

- 19 persons including legislators and government stakeholders participated in the policy retreat on the draft Unplanned Pregnancy and Unsafe Abortion Bill in Oyo State, with near gender balance (10 females and 9 males).
- 18 representatives across religious, ministries representatives and community leaders were engaged across Christian, Islamic, and Traditional institutions to strengthen advocacy and community dialogue on reproductive health issues.
- 12 representatives from the Ministry of Education, Oyo State Primary Health Care Board (OYPHCB), and partner institutions participated in coordination and implementation meetings, with women representing 75% of participants.
- The Project Planning and Implementation technical engagement team included 12 multi-sector stakeholders from education, health, and legislative institutions.
- A total of 46 participants attended the Comprehensive Sexuality Education (CSE) training, comprising 39 females and 7 males. Analysis of pre- and post-test assessments indicated significant knowledge improvement, with average scores increasing from 84% to 93%, demonstrating enhanced participant understanding and learning outcomes.

These quarterly infographics enhanced public awareness, strengthened stakeholder engagement, improved information dissemination, and increased visibility of PLAN Foundation's interventions and impact during this quarter. The visual reports also supported evidence-based advocacy, donor communication, and strategic program reporting by presenting complex project data in accessible and engaging formats for diverse audiences.
